Understanding our rates

The interest rates shown on this page are NAB's current fixed and variable home loan interest rates for new loans and are available for loans to both owner occupiers and investors.

If you already have a NAB home loan, please reach out to us directly by booking an appointment or calling 13 22 65 to discuss your current loan terms, including your interest rate. Alternatively, you can also manage your existing NAB home loan via the NAB app.

Our interest rates are NAB's advertised indicator rates plus or minus any margins.

Also see the current indicator rates (PDF, 40KB) a home loan expert uses to calculate our current interest rates.

Choose your loan details

Your interest rate will vary depending on a variety of factors. Choose from the options below to view the rates suitable to your situation.

Remember to consider your loan to value ratio (LVR). Your LVR is the amount you're borrowing, as a percentage of the value of the property you're buying.

Select rate type

Variable rate	Fixed rate

Interest rates can feel uncertain, your support shouldn't

If you're unsure how fixed, variable or split rates impact your borrowing power or next steps, our experts will talk you through options suitable for you. There's no commitment until you're ready to accept a rate and loan offer.
